ABSTRACT

Ulfa,Siti Fadilah.2023. *Students' Perspective on The Use of TikTok in Learning Grammar.* Undergraduate Program Nurul Jadid University. Advisor (I) Durratul Hikmah, M.Pd, Advisor (II) Syaiful Islam, M.Pd.

Keywords: Learning Grammar, Perspective, TikTok application.

This study aims to investigate students' perspectives on Grammar learning using TikTok. Researcher used research with a qualitative descriptive type approach. Collecting data used observation and interviews on open-ended questions adapted from previous studies. The stages of data analysis in this study used the method according to Miles & Huberman. According to Miles & Huberman, and researcher use the Flow Model in this study where the stages are data reduction, data display and conclusion Drawing/Verification. In this study the researcher used 7 students in the elementary class at the Darul Hikmah dormitory. The results of this study describe the three perception indicators proposed by Walgito (2010).

In the findings resulting from data information, it was found that for each perception indicator proposed by Walgito (2010), students have positive and negative perceptions of learning Grammar using TikTok. Besides that, there are several factors that influence their perceptions, namely internal factors and also external factors. As for external factors because the understanding explained by the teacher is still lacking in detail for some students so they have a negative perception of learning using TikTok. On the other hand, students feel learning using TikTok was fun and make students more enthusiastic in learning Grammar, and it makes students have a positive perception of learning through TikTok. Furthermore, internal factors that influence students were that students feel happy and excited so that learning Grammar used TikTok resulting in positive perceptions, while some students feel that their abilities to understand the material was low, thus caused some of these students have a negative perception of TikTok as a learning medium. Based on the research that has been done, the researcher found several weaknesses in this study. The weakness is that recommended learning videos for students do not explain in detail. Therefore, due to the limitations of the researcher in conducting research, The researcher suggests that future research teachers related to Grammar and TikTok can create Grammar learning videos in accordance with the material to be conveyed in detail and that future researcher is expected to be able to find a theory that determines the occurrence of perceptions held by students in learning English using TikTok. Thus, the findings of future researcher can explain more significantly and more deeply about the perspectives held by students.

ACKNOWLEDGEMENT

Bismillahirrahmanirrahim

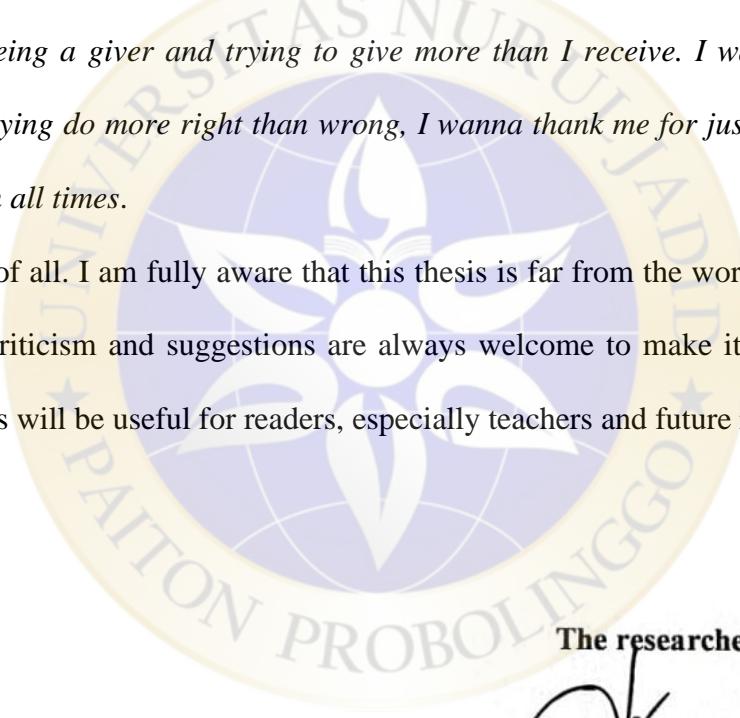

Alhamdulillah, All praise be to God the creator of the universe, Allah SWT. Who has given me strength, grace, extraordinary. For the grace and convenience that You have given to every step in completing this thesis, with the title "Students' Perspective on The Use of TikTok in Learning Grammar". Peace and prayers are always be upon on the great prophet Muhammad PBUH.

All the struggles and sacrifices up to this point, I dedicate this thesis to the following great people who have always been the best support system so that I can finish this thesis.

1. Hariyanto and Siti Amina, S.Pd, two great people who always give me endless love, always provide spiritual and material support. They are two great people who are the reason for me to always keep fighting.
2. Ma'am Durratul Hikmah, M.Pd. and Mr. Syaiful Islam, M.Pd. as the advisor who always gives directions to us in order to perfect this thesis. Being one of your guidance children is a blessing that I am always grateful for. Thank you Ma'am Durroh and Mr. Syaif, may you always be blessed with health wherever you are.
3. Friends in arms who always support each other. Thank you so much for being the best friend who has accompanied us every step of the way for the past four years.

4. Not forgetting the teachers, friends, and younger sister of the Darul Hikmah dormitory who always accompany and encourage me on a daily basis. You are also one of the reasons why I am always excited to finish this thesis.
5. *Last but not least, I wanna thank me, I wanna thank me for believing in me, I wanna thank me for doing all these hard work, I wanna thank me for having no days off, I wanna thank me for never quitting, I wanna thank me for always being a giver and trying to give more than I receive. I wanna thank me for trying do more right than wrong, I wanna thank me for just being me and me in all times.*

Last of all. I am fully aware that this thesis is far from the word 'perfect'. For this reason, criticism and suggestions are always welcome to make it better. Hopefully, this thesis will be useful for readers, especially teachers and future researchers.

The researcher

Siti Fadilah Ulfa
